Master Degree Programme in Animal Science

Main focus on:

1. Nutrition
2. Breeding/genetics
3. Etology

Specialisation within Master of Animal Science

- General Animal Science • Etology
- Animal Breeding and Genetics • Sport Animals and Pets
- Animal Nutrition • Animal Husbandry - Economy

Batchelor Degree in Animal Science (3 years), no specialisation

Scientific Theory	10 p	Anatomy/physiology	15 p
Chemistry	10 p	Etology	10 p
Biology	10 p	Nutrition	20 p
Mathematics	10 p	Breeding/genetics	15 p
Statistics	10 p	Molecular genetics	5 p
Intro. to Animal Sci.	20 p		

Master Degree in Animal Science

Specialisation: Sport Animals and Pets

The Master Degree is based on the BSc in Animal Science

Two-year programme, 120 p, including Master Thesis, 30 or 60 p

Equine Courses in the MSc programme

Horse Breeding and Nutrition,	5 p	Level 150
Horses, Main Course, (Gen. Nutr. Etol.)	15 p	Level 300
Individual Course at graduate level	10 p	Level 300
Individual Specialisation Course	15 p	Level 300
Master Thesis	30 - 60 p	

Total 75 – 105 p
